

Instrumental intro

At nine 'o three there's a train to be,
I need to get that ride, not to stand aside.
Nine 'o three, I just need to get that train,
I've got to keep on running not to stand in the rain.

There's a big fee for running late,
every second counts, (I) don't want to mis that date.
I've got to keep on moving, this feeling's just grooving,
got to keep on runn'n, don't want to be to late!

Instrumental

Nearly nine, it shivers through my spine,
I don't care 'bout my homework he's just got to be mine.
Don't occupy the seat beside him just leave it to me,
don't dare to sit on his side, it belongs to me.

Nine 'o three I just can not be delayed,
every second counts, don't want to mis that date.
I've got to keep on moving, this feeling's just grooving,
got to keep on runn'n, don't want to be to late!

Langere instrumental, soli's en overgang

There's a sound of a bell, there's just got to be a spell,
oh Mother Time be with me, please do me well.
Is there something You can do, just to get me through,
create an extra minute, I will always owe you!

There's a big fee for running late,
every second counts, (I) don't want to mis that date.
I've got to keep on moving, this feeling's just grooving,
got to keep on runn'n, don't want to be to late!
